ChatGPT Guide For
Better Community Pages on your branded website.

This document is designed to help you come up with a baseline for content on your community pages. It's by no means designed to always work perfectly right from ChatGPT every single time.

We strong recommend you also have a human who knows your market well review and edit each piece of content as neeed.

You should also be adding in links and local photos and vidoes as much as possible to give it your own touch as the local market expert.
